

David Fletcher Houston Area Deliveries

Some neighbors here at Silver Wings airport (Fredericksburg, TX) got together and donated enough money for me to buy and deliver fourteen new 18 cubic foot refrigerators to Sagemont Church in Southeast Houston. Jim Hastings is the director of disaster assistance there, office # 281 9226421. They have a large annex and converted it storage and distribution. I have confidence these will only go to the most needy.

Many lost their most basic appliances and can ill afford to replace them all at once, I just got back from Houston this morning driving my F350 truck and a large enclosed trailer, ready to go again if I can find another load. Maybe we can get some washing machines or dryers?

Thank you for the help in making this delivery to Sagemont Church happen, many desperate single moms and elderly will be at least somewhat relieved, 27 washers and dryers plus 2 refrigerators in this load. Nearly all of it were good Grumman Owners or ex-owners.
